```
Differences between python 2 and python 3.

---------- In Python 2 ---------------

>>> 5/3
1

>>> print 'hello'
hello

>>> print('hello')
hello

---------- In Python 3 ---------------

>>> 5/3
1.6666666666666667

>>> print 'hello'
  File "<stdin>", line 1
    print 'hello'
                ^
SyntaxError: Missing parentheses in call to 'print'. Did you mean
print('hello')?

>>> print('hello')
hello

-----------------------

In Python 3
 / works as expected
 the print command needs parentheses

We will use Python 3 in this course
```
